

REMARKS

Claim 1 is pending in this application, of which claim 1 has been amended. No new claims have been added.

Claim 1 stands rejected under 35 USC §112, first paragraph, as failing to comply with the written description requirement.

Claim 1 has been amended to eliminate any limitations unsupported by the specification, and the 35 USC §112, first paragraph, rejection should be withdrawn.

Claim 1 stands rejected under 35 USC §102(e) as anticipated by U.S. Patent 5,967,489 to Nakazawa et al. (hereinafter "**Nakazawa et al.**").

Applicants respectfully traverse this rejection.

Fig. 2 of **Nakazawa et al.** shows "a seal portion 18 of common construction (not shown in detail) interposed" between first and second fluid coupling members, as disclosed in column 4, lines 22-24. The "seal portion" appears to include an O-ring gasket, but Fig. 2 of **Nakazawa et al.** fails to show any part of the "seal portion" which corresponds to "gasket holding annular ridges on butting end faces thereof", as recited in claim 1 and as represented by members 71a, 72a in Fig. 1(b) of the instant application.

Furthermore, it should be noted that in the prosecution of the corresponding European application 99122292.8, claim 1 was allowed over the prior art of record with the inclusion of the following language into claim 1 via amendment:

... that the gasket holding ridges are in contact with the gasket at its radial midportion and accordingly the inner peripheral portion of the gasket is free of stress concentration and therefore develops no wrinkles.

This limitation is supported on page 10, lines 17-22 of the specification of the instant application.

Accordingly, claim 1 has been amended to include this limitation, which is not disclosed in Nakazawa et al. because, as noted above, Nakazawa et al. does not disclose the gasket holding annular ridges.

Thus, the 35 USC §102(e) rejection should be withdrawn.

In view of the aforementioned amendments and accompanying remarks, claim 1, as amended, are in condition for allowance, which action, at an early date, is requested.

If, for any reason, it is felt that this application is not now in condition for allowance, the Examiner is requested to contact Applicants undersigned attorney at the telephone number indicated below to arrange for an interview to expedite the disposition of this case.
